PROFESSIONAL EXPERIENCE

CLUE Research LLC
Independent R&D Technologist
Chicago, IL *June 2013 – present*
Self-funded research and development of data engineering practices and workflows. Beginning from no experience in software, I have learned a full-stack workflow that includes extract, transact, load (ETL) pipelines, database design/modeling, and cloud-server based web application deployment. I work with Python and PostgreSQL backend frameworks to develop APIs, and couple those with Node.js-based frontend applications via JavaScript and visualization packages including d3.js

Doyle Real Estate Advisors
Real Estate Analyst
Philadelphia, PA *June 2011 – June 2013*
Provided substantive research, analysis, and writing in support of the production of commercial real estate appraisals, market feasibility and HUD rent comparability studies, and third-party auditing of appraisals and market demand studies for FHA-insured multifamily accelerated processing (MAP) loan applications. My role included gathering market-derived data and intelligence, constructing financial models (e.g. DCF), performing due diligence, and document editing.

Philadelphia Zoning Code Commission
Land Use Administration and Policy Development Intern
Philadelphia, PA *September 2011 – May 2012*
Provided support to the Executive Director and Project Manager in carrying out the administrative functions of the Zoning Code Commission. Conducted research for ZCC workgroup sessions, assisted with community engagement meetings and created informational material. Produced and edited GIS maps, charts, and graphics appearing in the 2012 Philadelphia Zoning Code. Helped to create a zoning administration manual for use by property owners and the development community.
